IMMERSE YOURSELF IN A MIND BENDING EXPERIENCE, SHAPED
TO YOUR HEART'S DESIRE, FIT FOR A

QUEEN

Housed within the iconic Paris Theater, Queen Miami Beach represents the pinnacle of glamour and extravagance, where history, design, and culinary artistry converge to create an unrivaled dining experience in Miami. Having originated in 1945, the Paris Theater has witnessed the evolution of eras, from the Rat Pack's influence in the 1950s to the hedonistic nights of the 1990s, and now has been revitalized for a new generation with the inception of Queen. This contemporary Japanese-style grill brilliantly honors the theater's storied legacy, infusing it with a vibrant theatrical essence that presents an immersive 5-star culinary journey through Japanese culinary traditions. Matched with a modern approach, Executive Chef Mitchell Hesse has skillfully designed a menu that spans small plates, curated raw and marinated options, sushi platters and seafood towers, which then segue into heartier main courses. A top-tier butcher's program focuses on the best American and Japanese Wagyu alongside and Prime Grass-fed beef, complementing sushi offerings featuring the finest seafood from Japan and beyond.

Nestled discreetly on the second floor, a hidden omakase counter overlooks the bustling main dining room, offering a clandestine dining experience for those looking for meticulously crafted sashimi and nigiri, served piece by piece. Dubbed "Queen Omakase," this intimate enclave seats a select eight guests and introduces a lavish 13-15 course culinary journey under the masterful guidance of third-generation sushi virtuoso, Chef Max Kamakura.

Every element in Queen signals that guests have arrived in Miami. Designed to see and be seen, everything becomes a spectacle, a moment, an orchestrated dance of space and depth, textures and context, lighting and sound. Inspired by the halcyon days of twentieth-century European supper clubs, Queen is a high energy dining destination with world class art, entertainment and cuisine. From the Lobmyer chandeliers in the arrival hall to the state-of-the-art sound and lighting system, every element of Queen is designed to carry you on a sensory journey.

QUEEN CULINARY VISION

Queen is a lavish modern Japanese Grill. Each dish is carefully crafted to appeal to the most sophisticated palates, with presentations that pay homage to the regal setting.

Dishes are meant to be shared and served “as they are ready” and range from small plates from the raw and marinated section to sushi platters and seafood towers which then segue to heartier main courses.

The Josper Charcoal Oven and the Robata Flame Grill is the primary cooking method for the meats, seafood and vegetables on the menu, infusing the air with the smoky scents of grilling. A large range of Special Cuts including Wagyu beef (Japanese, Australian, USA/Texas) as well as choice seafood including grilled Dover Sole and Blue Lobster Thermidor will be offered as mains.

Desserts are both sculptural and elegant, offering a sweet ending and a fitting coda to the extravagant dining experience.

MITCHELL HESSE
EXECUTIVE CHEF

Australian Chef Mitchell Hesse is adept, adaptable, and passionate about the customer experience. From a young age, Hesse began his culinary journey helping his grandmother bake. As a teenager, he apprenticed in professional kitchens, gaining invaluable on-the-job training and a formal degree. In his mid 20s, Hesse moved to London, England for a career-making opportunity at an international restaurant, where he worked for two years prior to moving to Miami, where he led the opening of an Asian inspired venue, while shortly after opened a Michelin star restaurant. Following the pandemic, Hesse joined Mr Hospitality Group.

NITROGEN

With a total nine effect jets, the Queen FL-FX Cryo Fog Effect system is one of the largest, permanently installed fog effect systems in the US. It's unique turbine layout creates a one-of-a-kind fog dispersion, immersing patrons in a 360 degree cryogenic experience. Per special request from the club's design team a "discrete but powerful" additional effect jet was added to create what we can only call the Money-Shot experience. Both, artists and patrons will be part of a dramatic effect that will only be used at the most climactic moments of the night.

- 9 effect valves and 1 martyr valves
- 4 oxygen monitors; 1 in tank room, 3 on dance floor
- 1 tank on ceiling
- Retractable stage info tbd

System controls are all custom made and can be operated individually or integrated with all other venue controls.

Fully permitted by the City of Miami Beach, the system has automated safety parameters that abide by all code specifications.
